

To Whom it may Concern:

It goes without saying that, as a citizen of the United States and a subscriber of XM Satellite Radio, I am completely and unquestionably OPPOSED to any efforts by the Government or private business entities such as the National Association of Broadcasters to attempt to limit, curtail, or otherwise dictate the programming content offered by this fine service.

To me, it appears as though the broadcasters, rather than investing their profits in the improvement of their services, want to take umbrage with the superior services and content offered by XM and in so doing seek to protect their bloated coffers by enlisting the aid of the Government to interfere with XM and its First Amendment rights. Personally, I can think of better ways to utilize taxpayer dollars than on something as frivolous as this.

In summation, I urge the FCC to reject the NAB's petition 04-160 and allow XM to continue providing the high quality services enjoyed by subscribers like myself.

Sincerely,

William J. Wood
